

FIDA ULLAH

SOFTWARE ENGINEER

Islamabad, Pakistan • +92 345 3953162 • engrfidabettani@gmail.com • linkedin.com/in/fida-khan-767110240/

PROFESSIONAL SUMMARY

Computer Systems Engineering graduate with skills in Frontend and Backend Development, .NET, React.js, Oracle and SQL Databases, Networking, and System Design. Strong problem-solving, analytical, and teamwork abilities with a passion for developing efficient technology solutions and continuously learning new technologies.

WORK EXPERIENCE

Software Engineer

03/2025 – Present

Clean Volt (PVT) LTD | Islamabad, Pakistan

- Developed and maintained responsive company websites and web applications.
- Designed and built ASP.NET (.NET Framework) business portals for driver, employee, expense, income, and management systems.
- Designed, implemented, and managed Microsoft SQL Server databases, including database architecture, optimization, backups, and data integrity.
- Led software development projects, coordinated development activities, and ensured successful project delivery.
- Integrated front-end and back-end systems to improve business operations and workflow automation.
- **Technologies:** ASP.NET (.NET Framework), C#, SQL Server, HTML, CSS, JavaScript, Bootstrap, React.js, Git, REST APIs

Software Engineer

02/2025 – 02/2026

BBA

- Developed and maintained responsive websites using HTML, CSS, JavaScript, Bootstrap, and React.js.
- Built and maintained ASP.NET (.NET) web applications and business portals.
- Designed and managed Oracle and SQL Server databases, including data modeling, queries, and performance optimization.
- Collaborated with the development team to implement new features, troubleshoot issues, and improve application performance.
- Maintained and enhanced existing software systems to ensure reliability and user satisfaction.
- **Tools & Technologies:** ASP.NET (.NET Framework), C#, Oracle Database, SQL Server, HTML5, CSS3, JavaScript, Bootstrap, React.js, Visual Studio, Oracle APEX, SQL Developer, Git, Crystal Reports

Junior Software Engineer

07/2024 – 12/2024

MSCL (Pvt) LTD | Karachi, Pakistan

- Developed and maintained desktop and web applications using C# and ASP.NET (.NET Framework).
- Built and enhanced banking portals and enterprise business applications.
- Designed and generated dynamic reports using Crystal Reports.
- Developed and maintained SQL Server database-driven applications.
- Collaborated with the development team to test, debug, and deploy .NET solutions.
- **Technologies:** C#, ASP.NET (.NET Framework), .NET, SQL Server, Crystal Reports, Visual Studio, Git

Oracle Functional Intern

02/2024 – 05/2024

Procon Engineering (Pvt) Ltd | Karachi, Pakistan

- Built and maintained forms, reports, and dashboards using Oracle APEX.
- Developed backend logic with PL/SQL procedures, triggers, and functions.
- Created and managed database objects (tables, views) in Oracle Database.
- Designed Interactive Reports/Grids for MIS and inventory management.
- Assisted in data entry, CRUD operations, and role-based access for internal modules.

Software Engineering Intern

06/2023 – 12/2023

360Xpert Solutions (Pvt) Ltd | Karachi, Pakistan

- Assisted in creating responsive web interfaces using HTML, CSS, JS & React.JS.
- Gained practical experience with APIs, databases, and deployment processes.

TECHNICAL SKILLS

Programming Languages: C#, JavaScript, TypeScript, Python, Java, C++, SQL, PL/SQL

Frontend Development: React.js, Next.js, HTML5, CSS3, Bootstrap, Tailwind CSS, Responsive Web Design

Backend Development: ASP.NET (.NET Framework), ASP.NET Web Forms, Node.js, Express.js, REST APIs

Databases: Microsoft SQL Server, Oracle Database, Oracle APEX, PostgreSQL, MySQL, MongoDB

AI & Machine Learning: TensorFlow, CNN, OpenAI API, AI Agents, n8n Workflow Automation

Cloud & Deployment: AWS, Microsoft Azure, Vercel, Firebase, GitHub Pages, Docker

Core Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms, SDLC, Agile Development, Database Design, API Integration, Authentication & Authorization, Performance Optimization

KEY PROJECTS

Cardiovascular Disease Detection Using CNN (Final Year Project) | *Python, TensorFlow, CNN*

- Developed a deep learning model to detect cardiovascular disease using Convolutional Neural Networks (CNN).

Clean Volt ERP & Driver Management Portal | *ASP.NET (.NET Framework), C#, SQL Server*

- Developed a complete ERP and driver management system with modules for drivers, employees, expenses, income, salaries, and reporting.

Clean Volt Company Website | *React.js, HTML, CSS, JavaScript, Bootstrap, Next.js*

- Designed and developed a responsive corporate website with service pages, contact forms, and an admin-friendly interface.

Teacher & Student Management System | *ASP.NET (.NET), SQL Server*

- Built a web-based portal for student records, fee management, attendance, and teacher administration.

Florist SaaS Platform | *Next.js, React, TypeScript, Prisma, PostgreSQL, Tailwind CSS*

- Developed a production-grade enterprise SaaS application for a California-based startup.
- Developed a scalable SaaS platform with responsive dashboards and a multi-tenant architecture for the wedding industry.

Creator & Brand Collaboration Platform | *React, TypeScript, Node.js*

- Built a marketplace platform connecting brands and creators with campaign management and API integrations.

AruDeal - Car Marketplace Platform | *Next.js, React, TypeScript, Node.js*

- Developed an automotive marketplace with listing, comparison, and optimized frontend/backend data integration.

AI Automation & Workflow Systems | *OpenAI API, n8n, Node.js, AWS*

- Built AI-powered automation workflows for data processing, lead management, and backend task automation.

Vehicle Rental Management System | *Oracle APEX, PL/SQL, Oracle Database*

- Developed a vehicle rental portal for booking, customer management, fleet tracking, and payment records.

Inventory Management System | *Oracle APEX, PL/SQL, Oracle Database*

- Developed a web-based inventory management system with product tracking, stock management, and reporting dashboards.

Sales & Customer Management System (CRM) | *Oracle APEX, PL/SQL, Oracle Database*

- Built a CRM application to manage customers, sales records, invoices, and business reports.

EDUCATION

Bachelor of Engineering - BE Computer System Engineering

06/2023 – 12/2023

Dawood University of Engineering and Technology | Karachi, Pakistan • CGPA: 3.4

FSC Pre-Engineering

09/2018 – 06/2020

Islamia College Peshawar | Peshawar, Pakistan • Grade: 80%

Matriculation

09/2018 – 06/2020

BISE Bannu | Lakki Marwat, Pakistan • Grade: 90%

ONLINE COURSES & CERTIFICATIONS

- | | |
|------------------|----------------------------------|
| • Data Science | • React.js Development |
| • Data Analytics | • SQL Server Database Management |
| • AI Essentials | • Machine Learning Fundamentals |

- Project Management Fundamentals
- Oracle APEX Development

- Agile Software Development
